## Thought of the Week

"Concentration is the secret of strength in politics, in war, in trade, in short, in all management of human affairs." — Ralph Waldo Emerson.

# A Cracked Record pack Record packages carried by parcel post. The theory is that permitting partel post to take over some of the business of the investor-owned express companies will help trim chronic postal deficits. In the past, this same theory has been applied with dismal results. Recent announcements that the change in parcel post weight and size limitations is the opening of a new era of improved service may sound like a cracked record to those with long memories. Back in 1921, size and weight limits were boosted to eliminate a \$15 million annual parcel post deficit. Then, as now, it was forecast that the move would greatly expand the use fulness of parcel post. By 1951, the deficit was \$181 million. More avernment competition.

## State Of The Union

President Johnson's state of the union message to Congress Wednesday night painted a rosy picture of prosperity at home and a somber one of "more cost, more loss and more agony" in Southeast

Asia.

Except for a proposed six per cent increase in income taxes, the message contained no surprises, and little to bolster the President's

and little to bolster the President's sagging popularity rating.

As Rep. Edward Gurney of Florida put it: "Although obviously, subdued by last November's election defeats, President Johnson has not fully read the message from the voters."

This may be implieit in his call for intensification of the "war on poverty" and various other phases of the Great Society, including full implementation of his model cities program. Over all, it was a reiteration of his "guns AND" butter" stand.

stand.

He did recognize, however, He did recognize, nowever, that to have both without unmanageable deficits it will be necessary to increase revenue. That is where he is most likely to encounter resistance in the 90th Congress. The proposal for a six per cent supplies on both corporate and

The proposal for a six per cent surcharge on both corporate and individual income taxes — "to last for two years or for so long as the unusual expenditures associated with Vietnam continue" — is not encouraging in view of the President's expressed determination to flight out the war on the present line if it takes forever.

In dollars and cents it means that a taxpayer now shelling out \$1,000 a year would pay an additional \$60 annually "for the duration." For the first year, the President said, this would bring in an additional \$4.5 billion. During a full tax year the added receipts would

The President's wow to "see Victnam through to an honorable peace" elicited applause at the time, but no congressional unanimity is likely in the coming months on his conclusion that "we must firmly pursue our present course" in the war. Nor is his plea for patience likely to deter those pressing for victory.

More government competition with the express companies which are a vital part of the overall transportation system is not the way to improve postal service. On the contrary, shippers may be thankful that the express companies are still around. At a time when the courtry seems to be facing a crisis in general postal service, the common carriers of express are working harder than ever to provide the best in service. During recent years they have simplified rate procedures, introduced containerization and at least one of them. REA Express, provides a world-wide service that has brought unprecedented benefits and conveniences to international shippers.

It is time to look with new appreciation on the taxpaying, rereciation on the taxpaying, regulated private carriers of express whose existence depends upon service and efficiency at competitive prices. SWIFT CAT — In Asia the cheetah, a long-legged, 100 lb. cat, is often domesticated. Caught in a noose set by a favorite claw-sharpening tree, this animal is subjected to harsh discipline, after which it is easily trained for chasing game. It chases antelope over the plains at speeds of 65 to 70 miles per hour.

Because of the significant general increases in property assessments, and because tax seasons, and the seasons are seasons assessment, and because tax valorem taxation system which threatens to become confiscatory, this office will join legislative committees in recommending tax relief measures to the 1967 Legislature.

The second on by the Legislature, and this document can be expected to strengthen Florida's financial status with sections which will shore-up tax articles and add clarity and stature to the position of chief fiscal officer of the state. From these and other fiscal matters on the horizon, it is certain that taxation is the most difficult challenge.

certain that taxation is the most difficult challenge the Cabinet, the Governor and the Legislature face today.

Fairness and equity for all must be achieved, and the uniform application of the 100 per cent assessment formula, with accompanying reductions in milage levels will go a long way toward guaranteeing this relief.
